

Examic[®] EOSCE[®]

Methodology and Technology united

EOSCE is a simple and efficient system that enables you to rate your candidates without resorting to paper checklists. It consists of three simple applications which help you prepare, run and monitor your exams. With *EOSCE*, you have no erroneous or missing data and result analysis is simple and precise.

EOSCE also makes your examiners happy: proven ease-of-use means that rating is easier and more efficient than on paper!

Efficient oral & practical exams using iPads

Preparation: You prepare your exams and checklists, schedule candidates, examiners and stations easily with the OSCE-Editor app. At the click of a button, your entire exam is stored securely on your server and is ready to be delivered.

Analysis: While your exams are running, data is continually being sent to the server. At the end of the exam, you can download the results to OSCE-Editor and start analysing them at once.

Comprehensive service: We can offer the right solution for your specific examination needs. Our experts are happy to support you through every step of the way: from preparation to analysis.

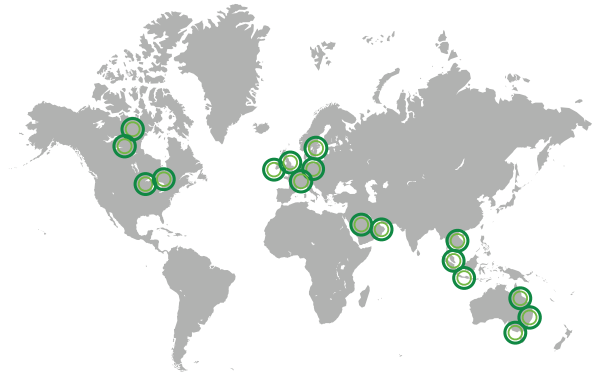

Delivery: Examiners rate candidates' performances on an iPad with OSCE-Eval. Meanwhile, OSCE-Track on an iPhone or iPad enables you to monitor on the overall assessment progress and become aware of irregularities immediately.

Eight Good Reasons for Examic EOSCE

- 1. Excellent Data Quality:** EOSCE offers various visual aids in order to fill in your checklists correctly and efficiently. As a result, ratings are more reliable and missing items belong to the past.
- 2. Network Independence:** You can save the entire exam on the tablets in advance, meaning that an exam can be conducted completely without a network connection. As soon as there is a connection, all data are regularly saved both on the device and on a server.
- 3. User-friendly:** EOSCE was developed in close collaboration with examiners and is regularly tested and improved with respect to its user-friendliness, both in the usability laboratory and in real-life exams. Examiners find using iPads less stressful than handling paper checklists. Studies have confirmed that they strongly prefer using OSCE-Eval over paper and pencil checklists.
- 4. Instant Data:** Exam data is instantly available for analysis at the end of your exam. With EOSCE you can skip all processing of paper checklists.
- 5. Prepare Once:** Easily run your prepared exams in the rooms of your choice, even in multiple locations simultaneously.
- 6. Quality:** Our products are built according to the highest engineering and usability practices and always with the end-user in mind. We are proud to say EOSCE was entirely designed and developed in Switzerland.
- 7. Proven in Practice:** EOSCE is regularly used in exams at multiple faculties in Switzerland and worldwide. The community of EOSCE users is growing fast.
- 8. Focus on Security:** Your exam data is of great value. Security is a top priority for us. EOSCE uses industry standard encryption technology to ensure data security.

EOSCE Worldwide

EOSCE is now being evaluated and used in over 15 countries around the world.

Has *EOSCE* sparked your interest?

We look forward to hearing from you.
